

Maintenance products for ongoing service

OKS 641

Maintenance Oil

100 ml aerosol, 500 ml aerosol

For dismantling, lubrication and care of machine elements, fine mechanical components and metal surfaces

- ☐ Good cleaning action
- □ Temporary corrosion protection
- ☐ Displaces moisture on electrical contacts
- ☐ Good lubricating properties

Typical application examples for **OKS 641:**

- Lubrication of levers, hinges and pivoting bearings in fine-mechanical systems
- Dismantling of rusted components and system components outdoors
- Temporary corrosion protection of metallic surfaces

Over 150 high-performance products from one supplier

- Pastes
- ☐ Oils
- □ Greases
- Corrosion protection
- Maintenance products
- Cleaners

Ask for our latest catalogues:

- Chemotechnical Products for industrial maintenance and assembly
- ☐ Speciality Lubricants for industrial applications

The information in this publication reflect state-of-the-art technology, as well as extensive testing and experience. Due to the diversity of possible applications and technical realities, they can only serve as recommendations and are not arbitrarily transferable. Therefore, no obligations, liability or warranty claims can be derived from them. We only accept liability for the suitability of our products for particular purposes, and for certain properties of our products, in the event that we have accepted such liability in writing in the individual case. Any case of justified warranty claims shall be limited to the delivery of replacement goods free of defects or, in the event that this subsequent improvement fails, to reimbursement of the purchase price. Any and all further claims, in particular the liability for consequential injuries or damage, shall always be excluded. **Prior to use, the customer must conduct its own testing to prove suitability.**No liability accepted for spelling mistakes, typing errors, miscalculations and translation errors. The data are subject to change for the sake of progress.

Cleaners for thorough removal of soiling and lubricant residues

OKS 2661

Fast Cleaner

600 ml aerosol

For machine parts with oily or greasy soiling.

- High cleaning power
- Evaporates quickly and residue-free
- ☐ Cleaner for lubrication and gluing points
- Brake cleaner

Typical application examples for **OKS 2661**:

- Reliable and efficient removal of corrosion protection, grease and soiling residues before regreasing of machine components such as bearings
- Preparation of metal surfaces before further treatment or assembly
- Cleaning of machine components in the course of general maintenance work

Pastes for easy assembly and dismantling

OKS 245

Copper Paste with High-Performance Corrosion Protection

250 g brush tin, 1 kg tin, 5 kg hobbock

- □ Prevents burning together and rusting on
- □ Prevents seizing during assembly
- □ Excellent corrosion protection
- □ Suitable for brake systems

For screws, bolts and sliding surfaces subjected to high temperatures and/or water.

OKS 250 / OKS 2501* White Allround Paste, metal-free 100 g tube, 250 g brush tin, 1 kg tin, 400 ml aerosol*

- Optimum ratio of tightening torque to achievable pre-tension
- Excellent corrosion protection
- Suitable for stainless-steel connections
- □ NSF H2 registered (OKS 250)

For screws, bolts and sliding surfaces subjected to high pressures and temperatures. Greases for long-term lubrication under critical operation conditions

OKS 470 / OKS 471*

White Universal High-Performance Grease

100 g tube, 400 ml cartridge, 1 kg tin, 500 ml aerosol*

- Good pressure properties
- Reduces wear
- □ Resistant to ageing and oxidation
- Waterproof

For heavily loaded roller and friction bearings, spindles and slideways when dark-coloured lubricants cannot be used.

OKS 1110 / OKS 1111*

Multi-Silicone Grease

100 g tube, 400 ml cartridge, 500 g tin, 500 ml aerosol*

- Excellent compatibility to plastics
- □ Tasteless and odourless
- Highly adhesive
- NSF H1 registered (OKS 1110)

For fittings, seals and plastic parts.

Oils with high-performance additives for reliable lubrication

OKS 451

Chain Lubricant, transparent

300 ml aerosol, 500 ml aerosol

- Extremely high creep capacity
- ☐ Highly adhesive and resistant to throwing off
- Excellent wear protection
- Waterproof

For fast-running chains and machine elements subjected to high pressures or corrosive influences.

OKS 671

High-Performance Lube Oil with white Solid Lubricants

400 ml aerosol

- ☐ Good penetration and lubrication properties
- □ Temporary corrosion protection
- Mo_x-Active for increased performance
- □ Bike chain oil

For long-term lubrication of machine elements subjected to high pressures, dust or moisture.

Corrosion protection for reliable preservation during storage and shipping

OKS 601

Multi Oil

400 ml aerosol

- Low-viscosity
- Extremely high creep capacity
- Good lubricating properties
- Displaces moisture

Multi purpose oil for industry, workshop and hobby applications.

OKS 2521 Gloss Zinc

500 ml aerosol

- □ Touching up hot-galvanised surfaces
- □ Can be welded through
- □ Abrasion resistant. Can be painted over.
- □ Fast-drying

Decorative corrosion protection based on zinc and aluminium powder for ferrous metals.
